

School Council's Vision and Aims

Our vision

Bishop Wilton C E School is a proud happy school, welcoming every child who comes. We try and turn everyone into a successful learner and hopefully they will like to learn here. We provide an interesting curriculum which will help them very well. They will learn in lots of different ways like in teams, individually and lots more. We want to make each child work independently on their work.

Values

Achievement:

- We hope to offer lots of different subjects in our curriculum and we want them to enjoy all their lessons in this school. We want to help them move up from nursery to years 6 where they will move to secondary school.

Participation:

- To make sure you know what you are doing.
- So that you can do lots of things and you can find things out for your self.
- Allowing pupils to pick what they want to learn and find out about.

Love

- To have a safe and caring school where children like each other and themselves.
- Doing what's right because we get praised and encouraged and knowing what's not right.
- To use Jesus as a model for how to behave and work.
