

Traffic survey

On the 11th of June we went to Bridlington on a school trip to see what the differences were between Bishop Wilton and Bridlington. When we were there we did a Traffic survey. The roads we worked at were Chapel Street, Cliff Street, Queen Street and the Promenade. We started the survey at 10:40am, some of us worked in pairs I worked with Matt we counted for 30 mins and here are the results in a pie chart.

Traffic survey

So as you can see Bridlington is a lot busier than Bishop Wilton!
