What is the book about?

The book is about James Bond. A professor is kidnapped to make a machine work that will change the world forever. James must crack the codes in the professor's letter to find out where he is. As soon as he cracks the codes he must find the professor before the world is at stake.....

Who is your favourite character and why?

My favourite character is James Bond, because he is always in danger and he makes the book a very action packed book to read. Also he is very unpredictable. He can sometimes just be a normal boy at school but then changes into a secret agent.

What is your favourite part of the book?

My favourite part of the book is the car chase because it feels like you are in the car with the wind cutting into your face. Also it feels like you can hear the roar of the engines from both cars.

Give some reasons why someone else should read this book.

If you are a sort of person who likes funny or heart wrenching books do not read this book but if you like action-packed gunfested thriller books this is the book for you.
