Book details

Title and author

Wombat in the Wild by [Lucy Daniels](#)

Publisher

Hodder & Stoughton

Philippa

(Year 4)

What is the book about?

Wombat in the wild is about a wombat called Batty. That has to learn how to live in the wild because his owner has to move from her farm, and she can't find a home for Batty. Mandy and her friend Garry have to teach Batty how to dig his own food, make his own home and to protect himself from dingos in a very short time.

Who is your favourite character and why?

My favourite character is Mandy because she rescues lots of animals and she loves animals like me.

What is your favourite part of the book?

My favourite part of wombat in the wild is when Mandy discovers that Batty survived an attack with a dingo.

Give some reasons why someone else should read this book.

If you love animals you should read this book because it is funny and it makes you feel like you are really there. Some times it's a bit sad.
